Jesse Rock

Hi. My name is Jesse I am an aspiring web developer/designer living in Saratoga Springs NY. I love to design and develop beautifully simple and effective websites, logos, flyers and more. As a designer I try my best to produce something seen nowhere else. I am seeking a position that will allow me to learn in an environment where I can contribute to a team effort, in a setting that will allow for a solid future within one company.

EXPERIENCE

Freelance Web Dev
JRockWeb
Saratoga Springs NY

For the past year I have been keeping busy while finishing up school doing freelance web/design work. By marketing my services I have found clients in need of websites, and logos. For these people I have designed and produced content to fill their needs. I work primarily with WordPress for web dev, exception being my website JRockWeb.com(to be updated in the coming months).

IT Internship (Summer 2013)
Callanan Ind.
Albany NY

Help Desk work which involved fixing printers, formatting computers, replacing old computers/phones/printers and other devices, and all around troubleshooting. Throughout the summer I also worked a good amount with VoIP Technologies.

Stager (2012: Mar-Aug)
Curtis Lumber
Ballston Spa NY

Assisted customers in locating and loading material. Using a forklift loaded trucks, and prepared loads to go out for delivery.

EDUCATION

SUNY Adirondack (ACC)
Information Technology
Computer Networking

At ACC I am working towards a Networking Degree through the CISCO program (expected Spring 2015). Along the way taking programming and design classes, and exploring the world of Web on my own, I have found a real passion for Web Development and Design.

ITT Technical Insts.
Web Development

Went to ITT taking classes in Web for a short time (2009-2010)before deciding to attend ACC.
